Education

University of Toronto — Toronto, ON
Honours Bachelors of Science in Computer Science — *Sep. 2025 – Jun 2029*

Experience

Crew Member — July 2025 – Sept 2025
McDonald — *Mississauga, ON*

- Optimized operational workflow to process 100+ transactions hourly with 100% accuracy during peak volume periods
- Ensured 100% compliance with health and safety protocols, consistently achieving top-tier ratings in internal quality audits

Math Tutor — June 2024 – Sept 2025
Private Tutor Center — *Mississauga, ON*

- Boosted student academic performance by 20% through the development of personalized problem-solving strategies and weekly technical assessments
- Mentored 5+ students in advanced logic and math, implementing personalized learning frameworks that resulted in a 30% average increase in overall test scores

President of Computer Science Club — Oct 2024 – Sept 2025
Port Credit SS — *Mississauga, ON*

- Led and organized weekly coding sessions for students, teaching programming fundamentals and problem-solving techniques in Python and C++
- Mentored students for the CCC, teaching DP, BFS, and backtracking algorithms with personalized feedback

President of Debate Club — Oct. 2023 – Jan. 2024
Port Credit SS — *Mississauga, ON*

- Led and facilitated weekly debate meetings
- Coached and mentored team members in argumentation, rebuttal strategies, and public speaking to improve confidence
- Fostered a collaborative and inclusive environment, encouraging respectful discourse and peer feedback

Projects

New Lense | *JavaScript, CSS, Python, HTML* — Dec 2025 – Present

- Used NPM to manage dependencies and ensure consistent builds across environments
- Integrated Nodemon to automate server restarts and accelerate the development cycle
- Built a scalable Node.js/Express backend to handle API requests and server-side logic

Physics Based Shooter | *Java, JavaFX* — May 2025 – June 2025

- Built a 2D JavaFX shooter with custom physics, collision detection, and projectile trajectories.
- Engineered a 60 FPS real-time game loop with responsive event-driven player controls.

Technical Skills

Languages: C/C++, Java, Python, JavaScript, HTML/CSS
Frameworks: React, Node.js
Developer Tools: Git, VS Code, Visual Studio
